REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest the invention as set forth in claim 1 of the instant application reciting, *inter alia*, a remote surgery support system, comprising an endoscopic imaging means, a first control means for controlling the endoscopic imaging means and a surgical instrument, an input means for inputting a control signal, a first signal transmission apparatus for receiving the control signal and converting the signal, a communication line over which the signal is transmitted from an operating room to a control room in a remote place, a second signal transmission apparatus for receiving the signal and converting the signal, a second control means for receiving the signal and a display device for displaying an output of the second control means. It should be noted that claim 1 of the instant invention is very similar to claim 21 of U.S. Patent No. 6,602,185 (matured from application Serial No. 09/503,520), which is the parent application of the instant application (the instant application is a divisional application of Serial No. 09/503,520). However, claim 1 of the instant application additionally recites an endoscopic imaging means.

Cooper, U.S. Patent No. 6,132,368, discloses a robotic surgery system in which a surgeon is located remotely from the patient. However, there is no comparable second control means in or any input means used by a person at the operating facility. The comparable input means in Cooper would be at a remote location, along with the surgeon. Green, U.S. Patent No. 5,808,665, fails to teach a second signal transmission apparatus in a control room, a second control means and a display device, as recited by

claim 1 of the instant invention. Accordingly, claims 1-3 of the instant invention are allowable over the prior art.

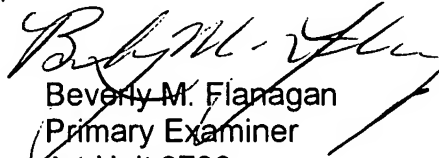

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
